Summary

I am a new full stack web developer. I have created projects/assignments that use HTML, CSS, and Javascript. Currently enrolled in MSU's coding bootcamp where we are diving into MERN stack

Education

Michigan State University

Computer Software Engineering

2020 - 2020

Attending MSU's coding bootcamp where we learn to become an asset in the software industry. Here I am learning multiple languages from basic HTML, CSS and Javascript to JQuery, React.js and SQL. With these tools under my belt I hope to obtain a job as a web designer, technical project manager, or a software developer.
